PROFESSIONAL SUMMARY

Detail-oriented Full Stack Developer and QA Engineer with a BCA (CGPA 8.67/10, 2026) and hands-on experience delivering 25+ projects spanning full-stack web development, AI/ML systems, and IT infrastructure. Proven track record building production applications with Python, Django, PHP, Laravel, WordPress/WooCommerce, and MySQL, including an AI Data Intelligence Platform using LangGraph, Neo4j, and OpenRouter with multi-agent orchestration. Skilled in manual QA testing, UAT validation, and Git-based deployment workflows, with strong grounding in Agile/SDLC methodologies, REST API development, and data visualization.

CORE COMPETENCIES

Full Stack Web Development • Python & PHP Development • Django & Laravel • WordPress/WooCommerce • REST API Design & Integration • Manual QA & UAT Testing • Database Design & Optimization • AI/ML Workflow Engineering • Agile/SDLC • Git/GitHub • Client Collaboration

TECHNICAL SKILLS

Languages: Python, PHP, SQL, JavaScript, R, C, C#

Web & CMS: HTML5, CSS3, Tailwind CSS, Bootstrap, WordPress, WooCommerce, Elementor

Databases: MySQL, SQLite, MongoDB, PostgreSQL, Oracle (Fundamentals)

DevOps & CI/CD: Docker, Kubernetes, Nginx, CI/CD, GitHub

Data Science: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Redis

Testing & QA: White/Black Box Testing, SQL Validation, Code Reviews, Manual & Functional Testing, UAT, Bug Reporting

SysAdmin: Hardware Troubleshooting, Network Setup, Virtualization (VMware, VirtualBox, Hyper-V)

Frameworks: Django, Flask, Laravel, React, Vite

Backend: REST APIs, CRUD, Auth, Secure DB Integration, Business Logic

Cloud & Deployment: AWS (Fundamentals), Azure (Fundamentals), Vercel

AI / ML: LangChain, LangGraph, OpenRouter, Ragas, Opik, Neo4j, Databricks

Visualization: Power BI, Tableau, Excel, PowerPoint

Methodologies: Agile (Scrum), Waterfall, SDLC, Ticket Systems

OS & Tools: Windows 10/11, macOS, VS Code, XAMPP, phpMyAdmin, Postman, Snyk, GitHub

WORK EXPERIENCE

Software Engineer — Full Stack Developer & QA Engineer — V G Parekh

2026 – Present

PHP · Laravel · WordPress · WooCommerce · JavaScript · MySQL

- Design, develop, and maintain full-stack web apps using PHP, Laravel, WordPress, JavaScript, MySQL, HTML, and CSS across multiple concurrent client projects.
- Build custom WordPress plugins, WooCommerce solutions, and booking systems, including a multi-day turf booking platform with pricing and conflict detection.
- Develop core modules for the Land Management System (LMS) and Rent Management System, translating business workflows into functional software.
- Identify, triage, and resolve 100+ UI, validation, and functional defects; design manual test cases and lead UAT validation cycles prior to release.
- Implement business logic and form validations; optimize database queries to improve performance and reliability.
- Own Git/GitHub workflows (branching, merging, deployments) and partner directly with clients to gather requirements and resolve issues.

Software Development Intern — Digital Dreams

Jan 2026 – Feb 2026

Django · Flask · MySQL · GitHub

- Diagnosed and resolved backend performance bottlenecks in Django and Flask applications, improving response times.
- Refactored relational database schemas to eliminate redundancy, strengthening query performance and data integrity.

- Conducted code reviews and SQL optimizations; documented workflows and maintained version-controlled repos on GitHub.

PROJECTS

AI Data Intelligence Platform [GitHub](#)

LangGraph · OpenRouter · Neo4j · Ragas · Opik

- Engineered an AI-driven analytics system for natural language querying over graph-structured data using Neo4j; orchestrated multi-agent LangGraph workflows and built Ragas/Opik evaluation pipelines for production-grade reliability

Smart Home Services Management System [Live Demo](#)

Python · Django · MySQL

- Built a full-stack Home Services web application with a Python backend and an HTML/CSS frontend to manage service provider listings and customer bookings, and implemented secure payment processing to handle customer transactions.

25+ Backend & Web Projects [GitHub Profile](#)

Python · Django · REST APIs · GitHub

- Engineered and integrated REST APIs with secure authentication across diverse projects; maintained organized, well-documented GitHub repositories.

FREELANCING

NXRA Digital [Live Demo](#)

Web Development · AI Solutions · Branding · Digital Marketing

- Company website for a digital solutions agency offering web development, AI solutions, branding, and digital marketing.

Pallaki Residency [Live Demo](#)

Hotel & Hospitality Website

- Modern hotel/residency website with rooms, gallery, amenities, and contact details.

Chetana 2026 Batch Memories [Live Demo](#)

College Memories Website

- College memories website showcasing photos, events, and farewell moments.

EDUCATION

Bachelor of Computer Applications (BCA) — *Chetana BCA & BBA College | RCUB University* **2026 — CGPA 8.67/10**

PUC – Science — *Shree BGS PU Science College | Karnataka Board* **2023 — 82%**

SSLC — *Shree SB PU College | Karnataka Board* **2021 — 83%**

CERTIFICATIONS

Data Science & Analytics — HP LIFE • Data Visualization — Tata (Forage) • Introduction to Generative AI — Google Cloud • UX/UI Design — Innoovatum

SOFT SKILLS & LANGUAGES

Skills: Problem Solving, Debugging, Root Cause Analysis, Requirement Analysis, Logical Thinking, Report Writing, Team Collaboration, Client Communication

Languages: Kannada, English, Hindi
